

# Overview of Water Resources Sector in India

## Training-cum-Workshop for School Teachers

**29 – 30 June 2026**

### Program Highlights:

- Expert Lectures
- **Field Visit: Khadakwasla Dam & CWPRS**
- Networking with Educators
- Course Completion Certificate

### Impact:

- Practical understanding of water resources
- Sustainable water management awareness
- Integration into school curriculum

### Why Attend:

Recognised by the Ministry of Jal Shakti, Department of Water Resources, RD & GR, this programme:

- Provides updated knowledge and sectoral insights
- Enhances hands-on learning and teaching capabilities
- Strengthens your ability to promote water conservation awareness
- Equips you to inspire responsible water practices among students and communities

### Shape Future Generations through Water Literacy

Be part of a national movement towards water conservation and sustainability. This program empowers you to:

- Develop a deeper understanding of India's water resources sector
- Gain practical, field-based exposure
- Integrate water literacy into classroom teaching
- Contribute meaningfully towards building a water-conscious society
