Central Water Commission**

**Training Program on
Preparation of Operation & Maintenance Manual of Dam
(31 August – 02 September 2026)**

Organized by National Water Academy, CWC, Pune

INTRODUCTION AND OBJECTIVE

India ranks third globally in terms of total number of specified dams after USA and China. As per National Register of Specified Dams 2025, there are 6628 total number of specified dams in India out of which 83 specified dams are under construction. In addition, there are huge number of non-specified dams. These dams are vital for ensuring the water security of the Country. Apart from providing innumerable benefits to society, dams also pose risk of potential impact on downstream communities and ecosystems.

Ensuring the safety of dams is of paramount importance to prevent potential hazards and to protect this valuable infrastructure. The **Dam Safety Act 2021** provides for surveillance, inspection, operation and maintenance of the specified dam for prevention of dam failure related disasters and to provide for institutional mechanisms to ensure their safe functioning. Chapter VI of the Dam Safety Act provides mandates that a well-documented operation and maintenance manual is kept at each of the specified dams and is always followed. Operation and maintenance manual” means the written instructions that provide operation procedures, maintenance procedures, emergency procedures and any other features necessary for the safe operation of dam.

The primary objective of the “**Preparation of Operation and Maintenance Manual of Dam**” is to assist dam owners, dam engineers, and other professionals with necessary knowledge and technical details required for preparation of Operation and maintenance manual for their dams.

Four days training Program on “**Preparation of Operation and Maintenance Manual of Dam**” has been conceptualized by NWA to facilitate dam owners to fulfill the very basic need of having O&M manual at every specified dam.

PROGRAM CONTENTS

Overview of Operation & Maintenance of dams & reservoir, development of O&M manual, preparation of rule curve- hands on, maintenance schedule, instrumentation & monitoring aspects etc.

Note# There will be hands on sessions during this training program. So, participants are requested to bring their laptops.

TARGET GROUP

This training is intended for the officers of Central Govt./State Govts/ PSUs/ Dam owners working in the design, execution, operation & maintenance and safety of dams & barrages as well as stakeholders from private Organizations/ Research Institutions/ Academia/ Consultants/ NGOs etc.

Participants are advised to bring their own laptops so that they can independently complete hands-on exercise.

RESOURCE PERSONS The resource people for the program would be subject experts from CWC, CWPRS, Damodar Valley Corporation etc.
